

FOR IMMEDIATE RELEASE

HIKA Appointed As Exclusive Distributor of CommandFusion

Hardware

CommandFusion appoint Hitecindo Kharisma (M) Sdn Bhd (HIKA) as exclusive distributor of automation and control hardware covering the regions of Malaysia, Indonesia and Brunei.

Kuala Lumpur, Malaysia — 05 July 2013

Malaysian audio visual distributor Hitecindo Kharisma has today been appointed as the exclusive distributor of CommandFusion automation and control hardware in Malaysia, Indonesia and Brunei. Covering a significant section of South East Asia, HIKA have offices and trained support staff in Petaling Jaya and Miri (Malaysia) and Jakarta (Indonesia). This appointment will ensure that local integrators have access to local support staff trained in CommandFusion products.

“HIKA’s established distributor and support network will really allow us to strengthen our presence in the South East Asian marketplace. We are looking forward to working closely with HIKA to bring affordable automation and control systems to many new customers” said Jarrod Bell, Co-Founder, CommandFusion.

HIKA add CommandFusion hardware to their already extensive control and automation hardware range. CommandFusion hardware complements the control products HIKA currently carry and adds an affordable alternative for price sensitive jobs that still require a powerful and effective solution.

With affordability and a modular, open framework at its core, the CommandFusion hardware range has been steadily growing in popularity. It represents a culmination of three years of development by our research and development team. The hardware revolves around a modular design ensuring that all system sizes from a single room up to an entire campus are cost effective and suited to any unique requirements. Already successful in the home automation industry, CommandFusion products have also been quickly gaining ground in the commercial and industrial automation and control sectors. CommandFusion believes in openness: software and hardware protocols are fully published - allowing integrators to mix control systems within a job to suit their requirements and budgets.

“CommandFusion hardware will allow us to offer a full solution for any size system or budget” Said C.K. Lum, General Manager at Hitecindo Kharisma. “We only take on the best brands, and CommandFusion is set to become a market leader.”

About CommandFusion

Founded in Melbourne, Australia in 2005 as GuiLink then renamed CommandFusion in 2011, the company has been selling its flagship software product (CommandFusion iViewer) for iOS since 2008. Renowned for its flexibility and versatility, iViewer is now available for both iOS and Android platforms. The company has been working on the hardware product line since 2008. With a small, dynamic and driven international team coming from the automation, software and hardware fields, CommandFusion strives to offer the best support and fastest innovation turnaround in the industry.
